## 6. Gdynia Cotton Association - Cotton Classification Course

19 March – 27 April 2012, Gdynia, Poland

For over 50 years the Gdynia Cotton Association has been organising full-time cotton classification courses as one of three cotton schools in the world. During the course, besides instrumental cotton testing and manual classification, participants also acquire knowledge of cotton markets, trade and the handling of cotton fibre.

## 10. 17<sup>th</sup> Festival of Science, Technique and Art

16 - 23 April 2012, Lodz, Poland

**Organiser:**  
Łódź Scientisis Association  
ul. M. Skłodowskiej-Curie 11  
90-505 Łódź, Poland

**Lectures on fibers and textiles:**  
■ Indicator method evaluation of

innovation in manufacturing technology – J. Wojtysiak, Z. Wrocławski, S. Kaniszewski (Institute of Technology Exploitation - National Research Institute, Poland)

- Retardant reflective vest for police – G. Grabowska, J. Błaszczyk, D. Zielińska (Institute of Security Technologies MORATEX in Łódź, Poland)
- Contemporary textiles in the protection of cultural heritage – M. Lao, P. Skórka (The Textile Research Institute, Łódź, Poland)
- Possible use of cereal straw in the textile industry – Z. Czplicki, K. Ruskowski (Polish Textile Association)
- Can clothing also protect humans? – A. Walawska (The Textile Research Institute, Łódź, Poland)

**11. 12<sup>th</sup> Domestic All-Polish Students' Seminar TEXTIL 2012 'FASHION – A Creative View of the Student'**

23 April 2012, Łódź, Polska

**Organiser:**

Faculty of Material Technologies and Textile Design  
Technical University of Lodz, Poland

The seminar is organised within the framework of the annual Festival of Technique, Science and Art and is directed towards secondary school students concerning the textile profile.

Competitions will be held in the following categories:

- exposure model,
- poster exhibitions,
- computer programming.

The organised seminar gives young people the opportunity to:

- present their projects,
- get acquainted with the educational offer of the Faculty.

**12. Ege-MEDITEX International Congress on Healthcare and Medical Textiles**

17-18 May 2012, Izmir, Turkey

**Topics**

- New developments in medical textiles and health care
- Biotechnology applications for medical purposes
- Smart and interactive textiles
- Comfort in medical textiles and health care
- Well-being
- Hygienic textiles

- Antimicrobial textile materials
- Special garments for medical purposes
- Bandages and corsets
- Personal protection
- Fibrous implants
- New textile materials in medical applications
- Testing and standardisation of medical textiles
- Textile-based drug release systems
- Monitoring systems for medical applications
- Economical dimensions and marketing of medical textiles

**15. 18<sup>th</sup> International Conference on Renewable Resources and Plant Biotechnology NAROSSA@2012**

4-5 June 2012, Magdeburg, Germany

**Organiser:**

- Institute of Natural Fibres and Medicinal Plants, Poland
- Pilot Pflanzenöltechnologie Magdeburg e.V. (PPM), Germany

**Topics**

- Biomass production and supply
- Usage of raw material
- Secondary ingredients
- Efficient applications of biomass for energy
- Biofuels and second generation biofuels

**16. Biobased materials - WPC, Natural Fibre and other Innovative Composites Congress**

19 -20 June 2012, Fellbach near Stuttgart, Germany

**Subject areas:**

- Natural and cellulose fibre-reinforcing materials, innovative plastic composites
- Innovative processing and manufacturing methods for bio-based polymers and composites
- Bio-based materials and biocomposites
- Additives and fillers for bio-based polymers and composites
- Innovative applications, e.g. for the furniture, construction, aircraft, packaging, sport and automotive industries

**17. 25<sup>th</sup> International Symposium on the Organic Chemistry of Sulphur (ISOCs-25)**

24 - 29 June 2012, Częstochowa, Poland

**Organiser:**

Centre of Molecular and Macromolecular Studies,  
Polish Academy of Sciences,  
Sienkiewicza 112, 90-363 Łódź, Poland

**Symposium Chairman:**

Professor Józef Drabowicz

**Honorary Chairman:**

Professor Marian Mikołajczyk

**Topics**

- Advanced Methods in the Synthesis of Organosulphur Compounds
- Theory, Mechanism and Stereochemistry
- Organosulfur Compounds in Bioorganic and Medicinal Chemistry
- Sulphur-based Ligands and Organocatalysts
- Sulphur-containing Advanced Materials in Nanotechnology
- Reactive Sulphur Intermediates in the Laboratory and in Space
- Analytical Chemistry of Organosulphur Compounds in Environmental Protection and Medicine.

**20. 10th Joint International Conference CLOTECH 2012 on Innovative Materials & Technologies in Made-Up Textile Articles, Protective Clothing and Footwear**

20 - 21 September 2012, Warsaw, Poland

**Organisers:**

- Central Institute for Labour Protection – National Research Institute
- Technical University of Lodz, Department of Clothing Technology and Textronics
- Kazimierz Pułaski Technical University of Radom, Department of Design, Footwear and Clothing Technology

**Topics:**

- new materials and technologies in the production of clothing, gloves and footwear
- directions for the innovation and development of protective clothing, gloves and footwear
- smart textiles and clothing
- comfort and ergonomic properties of clothing
- ecology of textiles and their manufacturing processes
- computer techniques in designing and making up clothing
- new trends in the fashion, design and construction of clothing
- mass customisation and rapid prototyping
- marketing and competitiveness of textiles in the European market
- standardisation and certification of textiles and clothing

**25. Aachen-Dresden International Textile Conference**

29 - 30 November, 2012 Dresden,  
Germany

The Aachen-Dresden International Textile Conference is one of the most important textile conferences in Europe and a platform for the international textile industry covering both textile chemistry & materials research and textile technology & engineering. More than 600 participants attended the last conference in Dresden. The Aachen-Dresden 2012 International Conference will focus on:

- Composites
- Membranes & textile construction
- Protective textiles
- Chemistry of composites, membranes and protective textiles

**28. Triennial Conference on X-Ray Investigation of Polymer Structure XIPS 2013**

December 2013, Bielsko-Biala, Poland

**Organiser:**

University of Bielsko-Biala

The focus of this international conference is to gain a thorough understanding of inherent structural properties in soft matter systems via scattering (X-ray, neutron and light), infrared and nuclear magnetic resonance spectroscopy techniques. The conference will provide an avenue for scientists from different disciplines to brainstorm and promote cross-disciplinary collaboration in various research areas including:

- X-ray scattering techniques, phase-contrast X-ray imaging, IR and NMR spectroscopy in studies of polymers and their composites, colloids, porous media, membranes, surfactants and biomaterials;
- Development of methods and techniques in X-ray studies of soft matter;
- Software and databases for soft matter structure investigations;
- Analysis of scattering data and modelling of material structure;
- Morphology and thermal behaviour of polymer materials

**29. Seminars organised in 2012 at the Institute of Biopolymers and Chemical Fibres (IBWCh), Łódź, Poland**

*The seminars will be held in the conference room at the Institute of Biopolymers and Chemical Fibres in Lodz at 11:00 a.m.*

**12 January 2012**  
**Biobased man-made fibres and composites**  
*H.P. Fink*

**23 February 2012**  
**Possibilities for biomass waste management in the pulp and paper industry**  
*M. Janiga*

**2 March 2012**  
**Research and development in a lean company - a case study**  
*J. Dutkiewicz*

**19 April 2012**  
**Research methods for the degradation of selected chitosan forms - application research**  
*M. Wiśniewska-Wrona, J. Ignacak*

**17 May 2012**  
**Accredited laboratories of the Institute in the aspect of polymer research and innovative polymeric materials**  
*J. Majcher*

**21 June 2012**  
**Marketing research on polysaccharides**  
*E. Wesolowska*

**20 September 2012**  
**Formation of polylactide spun-bonded nonwovens**  
*K. Sulak*

**18 October 2012**  
**Biopolymer compositions for ecological conservation and stimulation of plant growth**  
*A. Niekraszewicz, M. Wiśniewska-Wrona*

**15 November 2012**  
**Study of the ester exchange process for the synthesis of IBPE copolyester**  
*K. Płachta*

**13 December 2012**  
**Biological activity of galactoglucomannans isolated from domestic softwood**  
*E. Kopania*

**30. Seminars organised in 2012 at the MORATEX Institute of Security Technology, Łódź, Poland**

**15 February 2012, 10<sup>00</sup>**  
**Ballistic material compositions based on shape memory alloys**  
*P. Litwa*

**14 March 2012, 10<sup>00</sup>**  
**Promotion of the achievements of the Institute of Security Technologies 'MORATEX' in 2012**  
*I. Dusio-Kraska, S. Martynow, S. Gątkowski*

**18 April 2012, 10<sup>00</sup>**  
**Flammability of textile materials in the context of police uniforms**  
*E. Maklewska*

**20 June 2012, 10<sup>00</sup>**  
**Development of a program for simulation studies of using soft ballistic inserts**  
*M. Fejdyś, M. Cichecka, M. Łandwijn, I. Kucińska-Król*

**12 September 2012, 10<sup>00</sup>**  
**Requirements and results in the masking of VIS and IR light - discussion of the results**  
*I. A. Król, A. Bartzak*

**12 September 2012, 10<sup>45</sup>**  
**Factors determining the development of multifunctional ballistic shields**  
*G. Grabowska, J. Błaszczyk, D. Zielińska*

**17 October 2012, 10<sup>00</sup>**  
**Ballistic resistance of composite and ceramic-composite inserts for bulletproof jackets according to Standards PN-V-87000: 1999 and PN-V-87000: 2011 - comparison of test results**  
*D. Robak, B. Delczyk-Olejniczak, P. Litwa, I. Kucińska-Król*

**14 November 2012, 10<sup>00</sup>**  
**Textile composites with rheological fluids for potential bulletproof and/or knifeproof applications - continuation of earlier research**  
*K. Olszewska, D. Zielińska, I. Kucińska - Król*

**14 November 2012, 10<sup>45</sup>**  
**Test insert attempts of semi-technical production trials of camouflage materials - a summary**  
*A. Bartzak, K. Fortuniak, I. A. Król, E. Maklewska, E. Obersztyn, M. Olejnik, G. Redlich*

**12 December 2012, 10<sup>00</sup>**  
**Analysis of test methods and evaluation of flammability indicators of textile materials**  
*E. Solińska*

**12 December 2012, 10<sup>45</sup>**  
**Assessment of changes in the appearance of flat textile products during use, based on the determination of their tendency to hairiness and pilling**  
*T. Nowak, B. Hałas, M. Cichecka*

**12 December 2012, 11<sup>30</sup>**  
**Preliminary results of the modification of the surface of ballistic materials using low-temperature plasma**
