

# Contents

## 4 Abstracts in Polish

### GENERAL PROBLEMS IN THE FIBRE AND TEXTILE INDUSTRIES

- 8 **Shopping Patterns of Older Consumers in Slovenian Clothes Market**  
*D. Mumel, B. Završnik, J. Prodnik*

### RESEARCH AND DEVELOPMENT

- 13 **Influence of the As-spun Draw Ratio on the Structure and Properties of PAN Fibres Including Montmorillonite**  
*M. Boguń, T. Mikołajczyk, A. Kurzak, M. Błażewicz, I. Rajzer*
- 17 **Twisting Characteristics of Rotor-Spun Composite Yarns**  
*H. Zhang, Y. Xue, S. Wang*
- 20 **Analysis of the Performance of Sewing Threads Manufactured from Conventional and Compact Ring-Spun Yarns**  
*S. Yeşilpınar*
- 24 **A Study of the Basic Parameters Describing the Structure of Chenille Yarns**  
*E. K. Çeven, Ö. Özdemir*
- 29 **Assessment of Transversal Deformations of Multi-Axial Woven Fabrics Stretched One-Directionally**  
*I. Frontczak-Wasiak, M. Snycerski*
- 34 **Analysis of the Work of a Card Autoleveller with a New Algorithm of Operation**  
*M. Idzik*
- 37 **The Peculiarities of the Ornamentation of Lithuanian Traditional Woven Textiles**  
*I. Zdanavičiūtė, V. Milašius, J. Katunskis*
- 41 **Evaluation of the Structural Homogeneity of Denim Fabric by Means of Digital Image Analysis**  
*M. Owczarek, J. Masajtis*
- 46 **The Prediction of Elongation and Recovery of Woven Bi-Stretch Fabric Using Artificial Neural Network and Linear Regression Models**  
*S. N. Ogulata, C. Sahin, R. T. Ogulata, O. Balci*
- 50 **Evaluation of the Bending Properties of Viscose/Polyester Woven Fabrics**  
*A. Alamdar-Yazdi, Z. Shahbazi*
- 55 **The Role of the Textile Layer in the Garment Package in Suppressing Transient Heat Exchange Processes**  
*P. A. Sirvydas, J. Nadzeikienė, R. Milašius, J. Eičinas, P. Kerpauskas*
- 59 **Experimental Investigation of the Effect of Fabric Parameters on Static Water Absorption in Terry Fabrics**  
*M. Karahan, R. Eren*
- 64 **An Experimental Approach on the Performance of Towels – Part II. Degree of Hydrophilicity and Dimensional Variation**  
*B. Zervent, E. Koç*
- 71 **A Discrete Probability Model of Forces in Yarns Transported Through the Drawing Zone**  
*B. Włodarczyk, K. Kowalski*
- 76 **Magnetolectric Driving Device for Displacements of a Guide Needle Bar in a Weaving Loom**  
*Z. Kossowski, K. Kopias*
- 79 **Optimisation of Production Costs and Fabric Quality**  
*S. Kovačević, Ž. Penava, M. Oljača*
- 85 **The Comparison of the Kinetics of Hydrolysis of Some Reactive Dyes Before and After Purification**  
*D. Dorđević, J. Cerkovnik, M. Gorenšek*
- 89 **Oxygen Delignification of High-kappa Number Pine Kraft Pulp**  
*D. Danielewicz, B. Surma-Ślusarska*
- 94 **Information for Authors. Advertising and Subscription Information**
