- 4 Abstracts in Polish
- 8 From the Publisher

## GENERAL PROBLEMS OF THE FIBRE AND TEXTILE INDUSTRIES

- 9 **Characteristics of the Textile Industry of Two Asian Powers: China and India. Prospects for their Further Development on Global Markets**  
*A. Antczak, M. Greta, A. Kopeć, J. Otto*
- 15 **Analysing Omni-Channel Strategies of the Turkish Clothing Sector**  
*S. Kanat*

## RESEARCH AND DEVELOPMENT

- 23 **Effect of a Subjective Grading System and Blending with Polyester on Selected Wool and Yarn Characteristics of Subtropical Egyptian Barki Sheep**  
*A. Helal, R. Agamy, A.A.I. Gad Allah, E.M. Al-Betar, S.F. Mahouda, I.I. Abdel-Mageed*
- 28 **Optimisation of Multi-Response Surface Parameters of the Roving Twist Factor and Spinning Back Zone Draft**  
*C. Hong, S. Chen*
- 34 **Friele Model of Rotor Spun Multi-Primary-Colour-Blended Yarn**  
*R. Yang, Y. Xu, R. Han*
- 39 **Yarn-Dyed Fabric Image Retrieval Using Colour Moments and the Perceptual Hash Algorithm**  
*Z. Li, J. Xiang, L. Wang, N. Zhang, R. Pan, W. Gao*
- 47 **Effect of Pretreatment on the Smoothness Behaviour of Cotton Fabric**  
*N. Sisodia, M.S. Parmar, S. Jain*
- 53 **Thermophysiological Comfort Properties of Polyamide Pantyhose**  
*E. Tomovska, L. Hes*
- 59 **Case Study: Fit Evaluation of Protective Gloves Made of Elastic and Non-elastic Textile Materials**  
*E. Irzmańska, P. Kropidłowska*
- 65 **Determination of a Comfort Class for Protective Clothing Based on Ergonomic Tests**  
*G. Bartkowiak, A. Greszta*
- 75 **Investigation into the Dielectric Properties of Polypyrrole Coated Fabrics Composites**  
*C. Ge, Y. Liu, X. Qian, X. Zhao*
- 82 **Comparative Safety Testing (Acute Systemic Toxicity in Mice) of Two Materials Prepared from Polypropylene-Polyester (Codubix S) or Acrylate Resin (Mendec Cranio) Used for the Manufacturing of a Calvaria Prosthesis**  
*W. Sujka, I. Latańska, M. Stepnik, K. Sitarek, P. Kasprzak*
- 89 **Tannery Shavings and Mineral Additives as a Basis of New Composite Materials**  
*K. Ławińska, R. Modrzewski, W. Serweta*
- 94 **Carbon Footprint of Different Kinds of Footwear – a Comparative Study**  
*W. Serweta, R. Gajewski, P. Olszewski, A. Zapatero, K. Ławińska*
- 100 **Removal of Azo Dye Acid Red 27 from Aqueous Solutions Using Classical and Modified Fenton Reagent with Zero-Valent Iron**  
*S. Kłiś, M. Thomas, K. Barbusiński, K. Golombek, Ł. Krzemiński, M. Chyc*
- 107 **Effects of the Coating Mixture on the Penetration of Liquids into Paper**  
*J. Leks-Stepień*
- 112 **Information for Authors. Advertising and Subscription Information**

**General information:** The Aachen-Dresden-Denkendorf International Textile Conference 2019 – cover II, p. 111; IBWCh – FTEE – p. 14, 106; Textile Exchange Sustainability Conference 2019 – p. 21; 25<sup>th</sup> Inter Textile 2019 – p. 22; IASS Symposium 2019 – p. 27; Polymer Waste – Biopolymers & Bioplastics 2019; 32<sup>nd</sup> Materials Science and Engineering Conference: Advancement & Innovations 2019; 10<sup>th</sup> International Conference on Biopolymers and Polymer Science 2019; 22<sup>nd</sup> Edition of International Conference on Green Chemistry and Technology 2019; ECOSUMMIT Berlin 2020 – p. 33; 33<sup>rd</sup> PDDG Conference 2019 – p. 58; ECOSUMMIT Berlin 2020; Smart Polymer Tech 2019; Inter Dye & Textile Printing Eurasia 2020; Brightlands Rolduc Polymer Conference 2019; Membrane Science 2019 – p. 74; Euro Biotechnology 2019 – p. 81; Wood – Science – Economy 2019 – p. 88; University of Bielsko-Biala – p. 93; TAROPAK 2019 – p. 99; International Exhibition for Textile, Apparel, Leather and Equipment 2020; FAST TEXTILE 2019; FTEE – p. 111; ŁUKASIEWICZ Research Network – cover III.
