## 4 Abstracts in Polish

### RESEARCH AND DEVELOPMENT

- 7 **Mechanical Behaviour in the Wet and Dry Stage of Romanian Yarns Made from Flax and Hemp**  
*A. Mustata*
- 13 **Effects of Extraction Methods on the Morphology and Physico-Chemical Properties of Spanish Broom (*Spartium junceum* L.) Fibres**  
*T. Cerchiara, G. Chidichimo, M. C. Gallucci, D. Vuono*
- 17 **Important Aspects of Cotton Colour Measurement**  
*M. Matusiak, A. Walawska*
- 24 **Novel Method of Preparing Flame Retardant Cellulose-Silicate Fibres**  
*W. Steplewski, J. Kazimierzczak, D. Wawro*
- 32 **Dissolved State of Cellulose in Ionic Liquids - the Impact of Water**  
*O. Kuzmina, E. Sashina, S. Troshenkowa, D. Wawro*
- 38 **Effect of the Draft Ratio on the Properties of Vortex Spun Yarn**  
*N. Erdumlu, B. Ozipek*
- 43 **Simulation of the Processing of Fibrous Products in the OE-Rotor Spinning System**  
*P. Ursiny*
- 47 **Technological Calculation Relations for Computer Control of the Revolutions of the Driving Motors of a Band Warping Cylindrical Drum**  
*D. Liute, C. Racu*
- 51 **Design of a Warp Control Mechanism for Handmade Carpets**  
*M. Topalbekiroğlu, A. Kireççi, L. Canan Dülger*
- 56 **Comparable Analysis of the End-Use Properties of Woven Fabrics with Fancy Yarns. Part I: Abrasion Resistance and Air Permeability**  
*E. Kumpikaitė, A. Ragaišienė, M. Barburski*
- 61 **Modeling of Selected Properties of Spatial A-Jour Knitted Structures**  
*K. Piekłak, K. Siczek, Z. Mikolajczyk*
- 65 **Analysis of Coupled Heat and Water Vapour Transfer in Textile Laminates with a Membrane**  
*W. Sybilska, R. Korycki*
- 70 **Impact of Laser Thermal Stress on Cotton Fabric**  
*M. Štěpánková, J. Wiener, J. Dembický*
- 74 **Electromagnetic Shielding Effectiveness of Doubled Copper-Cotton Yarn Woven Materials**  
*R. Perumalraj, B.S. Dasaradan*
- 81 **Effects of Weight, Dyeing and the Twist Direction on the Spirality of Single Jersey Fabrics**  
*Z. Değirmenci, M. Topalbekiroğlu*
- 86 **Crease Resistant Finishing of Cotton Fabric with a Complex of Fibroin and Citric Acid**  
*M. Lu*
- 89 **Investigation of the Thermal Properties of Socks Knitted from Yarns with Peculiar Properties. Part I. Thermal Conductivity Coefficient of Socks Knitted from Natural and Synthetic Textured Yarns**  
*R. Čiukas, J. Abramavičiūtė, P. Kerpauskas*
- 94 **Influence of Sportswear Made from Polyester and Man-Made Cellulosic Fibres on the Energy Cost of Physical Effort**  
*M. Zimmiewska, M. Laurentowska, E. Bogacz, J. Kryściak, K. Domaszewska, O. Zimmiewska*
- 100 **Reconstruction of Archaeological Textiles**  
*M. Cybulska*
- 106 **Transverse Vibration of Papermaking Felt**  
*P. Zheng, X. Ding, J. Yang, R. Chen*
- 109 **Green Solution for Cotton Scouring**  
*M. D. Stanescu, M. Dochia, D. Radu, C. Sirghie*
- 112 **Information for Authors. Advertising and Subscription Information**

**General information:** 6<sup>th</sup> Central European Conference CEC 2010 p - 31, University of Bielsko-Biała, Faculty of Materials and Environmental Science p - 37, CLOTECH'2010 The 9<sup>th</sup> Join International Conference p - 59, The 13<sup>th</sup> International Triennial of Tapestry p- 60, Multifilament Chitosan Yarn p - 69, XIPS'2010, p - 93.
